STREET SPORTS™  
Pogo**Do the Pogo!**

According to the "Top Jumps" scoreboard, Goerp has the #1 spot for weeks. Sure, he's a tall guy, soaring through the air with ease - but nobody rules forever! Jmin grabs his pogo stick, steps back down to the chalk line, and starts bouncing. Maybe today's not a record-breaking day... but it's the perfect day for pogo. And that means, everyone wins!

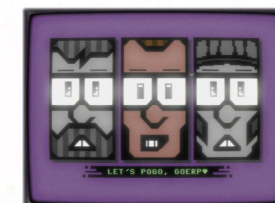

**Take it to the street!**

Pogoing is easy to learn but hard to master! First, get ready, build up bounce power, lean in for the perfect angle and launch yourself sky-high. Stick the landing by keeping focused, tightening your grip, and getting your knees in check. Bam - you're pogoing!

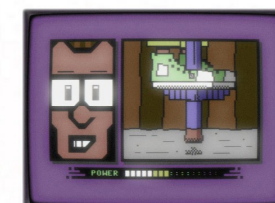

**Only the best make the board!**

Every jump is scored and only the best earn a place on the scoreboard. Master the pogo stick and push your limits to climb the ranks. Think you've got what it takes to knock Goerp off the top?

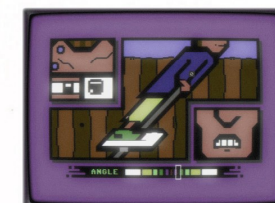

- ▶ All Pixel Punx are playable characters, each with unique attributes

▲ All three Pixel Punx are in check for breaking records.

▲ Easy and relaxed at first but we're going to see sweaty foreheads soon.

▲ Raw power isn't everything. Lean in but don't push it.
